October Fur Sale

It is scarcely possible to more than suggest, here, the greatness of this representation and sale of fashionable furs—and nothing could be lovelier for Milady's Winter adornment and comfort—to her, fors are the essence of beauty and luxury— for femininity is luxury and beauty loving.

The special pricings which prevail for this week only will be of greatest interest to women who have longed for histrous furs, but felt that because of their prices, they could not afford them-here they are placed within the means of all-they are no longer considered a luxury, they are true economy.

Among the many beautiful pieces here are routs of Hudson seal, combined with skunk, beaver, Siberian squirrel. Their Sale Prices range from \$329.00 to \$705.00

Coatees of Siberian squirrel, Kolinsky squirrel, natural mink, Pitch and French seal in many becoming styles. Sale Prices range from \$75.00 to \$250.00

Stoles of stately beauty range in price from \$72.50 to \$250.00

Animal Scarfs in a variety of fuxes, priced-from \$47.50 to \$129.50

SWEATERS

IT'S so very easy to keep your sweater looking bright and new; to keep it from shrinking or discoloring; to keep it fluffy and soft; if you wash it with Ivory Soap Flakes.

Nothing could be easier than tossing a few light snowy white flakes of Ivory Soap into a basin of warm water, then sousing the sweater, pressing it and squeezing it a few times, and rinsing. That's all there is to it.

It really isn't work at all-and you know that there is no injury being done because Ivory Soap Flakes is simply the newest, most convenient form of genuine Ivory Soap, which you know has a forty year old reputation for absolute safety in fine laundering.

Ask your grocer for it.

To Wash Sweaters

Soak for ten minutes in rich, lukewarm Ivory Soap Flaker suds; squeeze and press gently, under water, to expel the dirt. Use a second sads if sweater is hadly soiled. Do not rub, pull or twist the knitted fabric. Do not lift the sweater out of the water without first slipping a towel under it, or the weight of the water may stretch it. Very loosely knitted sweaters should be sewed into a cheeserloth bag before washing. - Rinse thoroughly in lukewarm water. adding a few Ivory Soap Flakes to the last rinse. DRICES are coming down because they must-not because costs have lowered, but because business in this country cannot resume its normal volume and confidence until the adequate buying power of the dollar has been restored.

This is not palatable doctrine to manufacturers who, like ourselves, are actually facing higher costs today than six months ago; but it is the irresistible logic of the situation, and only as it is generally faced and courageously met will the resionation of the economic equilibrium be hastened.

When Hare's Motors undertook the operation of the companies under its control it was fully expected—as we took much pains at the time to make the public aware—that their increased production under the direction of our able engineering staff would eventually reduce costs regardless of the general price trend, but it was not expected that our operations would by this time have reached that stage and, as a matter of fact, they have not.

Both output and sales have been greater during the last four months than at any other equivalent period in the history of the Locomobile and Mercer Companies, but improvements in both products, plus increasing costs of labor and materials, have more than kept pace with increased production, and except for the obvious duty of collaboration among manufacturers to restore the morale of business; even at considerable temporary sacrifice, there would be no justification whatever for a price reduction at this time. a price reduction at this time.

Nevertheless, we are convinced that such-Nevertheless, we are convinced that such procedure is today both sound and constructive—that the greatest ultimate profit is to be carned by taking a present loss—and it is our earnest hope that before the period expires within which, under existing conditions, we can afford to maintain the revised price list, our business will have expanded enough and our costs will have dropped enough to warrant our making the new prices permanent.

If not, we shall have no recourse but to revise again—and this time upwards.

Because of the element of uncertainty which obscures this point we are for the present accepting orders for delivery at the new scale until January.1st only.

This new way to beautiful teeth

Your druggist today has a new way of teeth cleaning. And a ten-day tube

Millions of people now employ it. Leading dentists everywhere advise it. You would never go without it if you

Go ask for that free tube. There are few things more important than well-protected teeth.

Remove the film-coat

You brush teeth now, but you leave much of the film. A viscous film clings to the teeth, enters crevices and stays. The ordinary tooth paste does not end it. So teeth too often discolor and de-

Dentists now know that the reason lies in film. That causes most tooth troubles. And, until one ends it, brushing fails to eave the teeth.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. And pyorrhea wrecks countless lives today.

An alarming situation

Tooth troubles have been constantly increasing. Very few people escape them. So dental science has in late years studied to combat that film.

Now we know how. The methods Now we know how. The methods have been proved by careful clinical tests, made under able authorities. Now millions of people employ them, largely by dental advice. A new era in teeth cleaning is fast spreading the world over.

These new methods are combined in a dentifrice called Pepsodent. A 10-Day Tube is given to everyone who asks. Now all who will may quickly know that film can be combated.

What you will see

A test of Pepsodent brings quick and unique effects. One sees and feels them clearly. And a book which comes

one ingredient is pensin. Another multiplies the starch digestant in the saliva to digest, starch deposits that cling. Each application also multiplies the alkalinity of the saliva—to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One keeps the teeth so highly polished that film cannot easily adhere.

Day by day we fight the film and all its ill effects. You see the results in whiter teeth. You feel them in cleaner teeth. But the great results are such protection as teeth never had before.

You owe yourself a knowledge of these facts. Old ways of brushing have proved sadly inadequate. Nearly everybody at some time suffers troubles caused by film.

Now science knows how to combat film, and in ten days you can know. Never again will you trust the old ways when you know the new.

Teeth will glisten when the film-coat goes

Opt this free tube and watch it. Note how clean the teeth feel after using. Mark the absence of the alimy film. See how teeth whiten as the film-cost disappears. You will instantly know that Pepsodent does what nothing clee has done. In a few days you will realize what clean teeth mean.

Morning to you, Pete

Kansas City, Mo. — lote at might!

I ho crossed my trail in the hotel this afternoon but hong Sani Weaver! Last time I saw sam to chin to was that night of July 15." when our old 38th Clinched the "Rock of the marne" title! And, I guess now won't forget that night, old glue pol- for every - body was testainly stuck on you!

Sam and I fought the war all over again and dug into our Camel Supplies like it was "fire commissary." Saw never will get all done talking about that session when we couldn't work a hair without gitting a close shave—and no eats or swotes! Sam was clear as a bell as to how you located a fresh deck of Camilla and passed lew to our bunch after we had been relieved!

Sam has some song about hour good Camels were to hun in Itance—and ever since! That bird has the wartle! Why-Camel talk trickles off his tongue like water flows over Pa Swith's mill dam! Pete, old carpet tack, Sam has a head, all right!

"Camels Certainly are friendly" was the way Sam put it in his old vigor-vim size! "You know as well as I do," he added, "that no other cigarette has such a wild mellow body and, there's no harshness or tiredness of taste in a unliver lamels No objectionable odor, no lingering unpleasant aftertacte! To, was sum it all up, Shorty, 9:11 say lamels are the gratest agarette in the world at any price!"
